Why am I funding a student to attend the Iowa CEO annual meeting?

THAT IS A GREAT QUESTION. The world is complicated. There is no way that every topic can be included in a college education. How do we expose students to these important topics? How do we grow the workforce of the future? We need to create opportunities to engage with them and share the important, and rewarding opportunities, that are available to them.

Employee ownership is one of those topics and by sponsoring a student we are benefiting not only them, but the other students they share with on campus.
